-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 January 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hupp (WO 01/51378).

The claims broadly set forth a container body, a cover defining an X-Y plane when first and second fastener portions on the body and cover are engaged, a track comprising a track fastener portion formed on the fastener, a ramp and a slider movable along the track for opening and closing the fastener. Hupp also discloses the same structure.

To the degree set forth in the claims and given the broadest, reasonable interpretation, the inclined surface of the fastener is a ramp and extends from the ramp. Moreover, the portion 64 is also a ramp that extends from the first end of the closure further having an inclined surface extending out of the orthogonal X-Y plane of the fastener.

Regarding claim 17, a portion of the fastener lies in multiple planes, thus defining more than one plane.

It is noted that claim 19 is drawn only to a fastener. With regard to claim 19, the track is set forth as having a fastener portion formed on and extending from an end of the interlocking fastener portion. The edge of fastener portion on the left side of the container depicted in Fig.2 is seen as the ramp.

Response to Arguments

3. Applicant's arguments filed January 5, 2006 have been fully considered but they are not persuasive.

Art Unit: 3727

Applicant argues the reference does not specifically teach an inclined surface extending out of the plane of the fastener. While it is true the written description does not specifically describe the ramp by using those terms, the drawings are relied upon for disclosing the structure. See MPEP § 2125.

Applicant's remarks are insufficient to overcome the rejection set forth above.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various prior art closures teaching features similar to those disclosed and/or claimed are cited for their disclosures.

6. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify

the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

7. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. _____ is being facsimiled to The U.S. Patent and Trademark Office via fax number 571-273-8300 on the date shown below:

Typed or printed name of person signing this certificate

Signature _____
